Course Descriptions

COM -100-X1 Public Speaking-3 Credits- This course provides the student with training and experience in researching, organizing, and presenting various types of oral presentations. Topics covered include audience analysis, speech organization, delivery techniques, and the use of visual aids, including Power-Point. Narrative, informative/demonstration, persuasive, and group presentations are required. Speeches are videotaped for student review.

EDU -101-X1 Introduction to Education- 3 Credits- This survey course will introduce the student to education in America and the basic elements of its structure. The course will explore education's history, examine the role of public education in a democracy and identify current trends affecting education today. The course will also examine the relationship between education and society to analyze the impact they have on each other. The course will emphasize the role of educational staff in the contemporary schools environment. Prerequisites: None.

ENG -101-X1 College Writing- 3 Credits- College Writing is designed to expose students to the range of writing most likely to be encountered in the academic setting, and the skills most helpful in writing for all purposes. The course provides students with instruction and practice in writing clear arguments and expository prose. Emphasis is on the writing process, revising and editing. Students are expected to use the library to research a contemporary issue and use either the MLA or APA citation style to document sources. This course is taught using a computer network. Prerequisite: Successful completion of both a) CMCC writing assessment, or ESL 101 or Department approval and b) CMCC reading assessment, or ENG 050.

MAT -135-X1 Statistics- 3 Credits- This is an introductory course in statistics. No previous experience in the understanding or use of statistics is assumed. Topics of study include: descriptive statistics, probability and probability distributions, sample sizes and hypothesis testing, dependent and independent samples, correlation and regression and analysis of variation. Other topics such as statistical process control may be included as time permits. Some computer literacy is assumed. Prerequisite(s): MAT 100 or minimum 50th percentiles on Arithmetic and Algebra Assessment & Placement Tests, and Algebra I & II (C or better), or Math SAT 480.

PHI -101-X1 Critical Thinking-3 Credits- This course introduces the student to the principles of critical thinking and provides practice in applying these principles to everyday decision making and argument analysis. The student will learn to distinguish between rational thoughts and feelings, identify assumptions, identify the quality of evidence, clarify by asking questions, fair-mindedly analyze multiple viewpoints, and make reasonable judgments. Students will apply principles of clear thinking to evaluating messages from the news media and advertising. Prerequisite: ENG 101.

POS -151-X1A American State and Local Government- 3 Credits- This course is intended to introduce the student to the essentials of sub-national government in the United States. We will study and analyze many different aspects of state and local politics, including: federalism, state constitutions, citizen participation, elections, political parties, interest groups, campaigns, governors, budgeting, the bureaucracy, state legislatures, the judiciary, local government, leadership and governance, economic development, intergovernmental relations, and various public policies. Particular attention will be paid to state and local government within Maine. In addition, the student will study and analyze how power operates as a part of political culture, various institutions and important actors within sub-national government in the United States. (**Most of the class is on-line with some class meetings.)
