

NURSING

Associate in Applied Science

The Nursing degree prepares students to become registered nurses at the associate degree level. The curriculum blends nursing and general education courses to provide a sound theoretical base for nursing practice. While preparing to become a registered nurse, students will:

- Assume the ethical responsibility as a member of the profession of nursing and practices within the Nurse Practice Act
- Use effective therapeutic and interpersonal communication skills
- Holistically evaluate client/patient needs through the collection, analysis, and synthesis of data
- Generate safe and effective clinical judgments using critical thinking skills
- Collaborate with other health care team members and the patient in planning and providing safe and effective care
- Assume responsibility as a manager of care for a group of patients by establishing priorities for nursing care.

While many graduates transfer to four-year colleges and universities, graduates may pursue careers at:

- **Hospitals**
- **Extended care facilities**
- **Clinics**
- **Psychiatric facilities**
- **Substance abuse facilities**

Specialized disciplines of nursing include:

- **Surgery**
- **Obstetrics**
- **Pediatrics**
- **Geriatrics**
- **Psychiatrics**

Degree Requirements

Semester I		Credit Hours
BIO 115	Anatomy and Physiology I (Lec.)	3
BIO 116	Anatomy and Physiology I (Lab)	1
ENG	Select <u>one</u> of the following:	
	*ENG 101 College Writing <u>or</u>	3
