

# CAREER STUDIES

Associate in Applied Science

**The Career Studies program provides flexible curriculum for students who have unique career goals that cannot be met by other programs of the college.**

Students gain knowledge in:

- Clear written and verbal communication
- Interpersonal and analytical skills to solve problems affecting outcomes of work place projects
- A variety of areas through formal and informal means
- Analysis of opportunities vs. individual strengths to make sound career-path decisions

**Appropriate students will have significant career experience which exhibits both breadth and depth.**

**Experience may be documented in either standalone or combination of advisor approved prior learning documentation, which may potentially award students up to 18 credits upon satisfactory assessment. The remaining curriculum will be determined by the student and his/her advisor. All courses selected should be relevant to the student's career focus which will be determined at the time of enrollment.**
