

CONSERVATION LAW ENFORCEMENT

Associate in Applied Science

**NEW
DEGREE**

Prepare for a career involving the protection of natural resources, management of wildlife resources and the enforcement of laws governing these resources.

Upon graduation, you will be able to:

- Demonstrate an understanding of the sociological and psychological theories of crime causation and evaluation of human behavior.
- Demonstrate the ability to apply principles of statutory law and due process within the criminal justice system.
- Explain foundational principles of fish and wildlife management and conservation protection.
- Discuss conservation law as it relates to state, constitutional law and federal natural resources law.
- Identify trends relevant to conservation, environmental, and natural resource issues.

Professional career opportunities for graduates include:

- fish and game warden;
- national or state park service or bureau of land management ranger;
- conservation law officer;
- marine enforcement officer.
