Program Overview:

1) **Program description** *(from the most recent college catalog):*

The Associate in Applied Science degree in Culinary Arts prepares students for careers in culinary arts, foodservice management, catering, institutional food service, and as chefs. Course work covers a broad spectrum: the preparation of basic and specialized foods, baking and pastry arts, nutrition, sanitation, management techniques and functions, cost control, purchasing, and culinary fundamentals. Students will learn the art of classical French techniques mixed with modern trends. Emphasis is placed on culinary skills as well as soft skills such as professionalism, how to survive in the industry, teamwork, communication and critical thinking skills. Students work in a kitchen laboratory and dining room setting through the course of study.

2) **Program Learning Outcomes: all program learning outcomes are expected to be assessed within the five-year cycle. Please attach an Assessment Data and Reflection Template for each program learning outcome. Explain how the department used the assessment results to improve teaching, learning, and the curriculum.**

8) Strengths, challenges, and planned steps for continuous improvement: In your summary assessment you should reference sections of this review that informs the plan.

Program Strengths:

- Cooking and baking classes fall around a 50/50 mix. Giving students more hands-on time with baking than in other CC culinary programs
- While the events have slowed down, the culinary arts program is still working on doing events throughout the year. Including events for the college, fall/spring fling, welcome back bbq, for the faculty and staff, Holiday lunch, and for the supporters of the college, Annual Awards desserts and in 2025 the Board of Trustees.
- Gives students a great foundation to keep learning on the job or be able to make meals at home.
- CTE schools are sending more student to CM
- Equipment is always growing, excess event funds used to buy new equipment what applicable

Challenges:

- Some students come in with good jobs, leaving only a few students to fill the areas culinary job postings.
- CTE students can come with little experience or confidence. Some find themselves bored with classes because they have completed topics prior. It is a mixed bag sometimes.

- Student involvement after class. Schools not first priority - family, jobs, don't want too.
- Kitchen space. Being able to start a spring cohort. I think we are getting closer to a number of students that would make sense to start one.
- Advisory Board members not showing up.
- Finding enough instructors to teach classes. Many think postings are for full time not adjunct

Planned steps for continuous improvement:

- Recruit more advisory board members
- Find more instructors
- Visit CTE's to get awareness out and build a relationship
- Utilize Brightspace to collect more data on student success
