

EDUCATION

Associate in Science

(also available 100% online)

The Associate in Science in Education prepares students for transfer to bachelor's degree programs to become education technicians, certified teachers, or to provide continuing education in preK-12 education school settings to professional teachers.

Students in this program will plan learning opportunities that support an individual's physical, cognitive, and social/emotional development. A variety of instructional strategies are emphasized to meet diverse learning needs and encourage critical thinking and problem solving.

Graduates who complete a bachelor's degree may be employed as:

- Education Technicians
- Certified Teachers
- Professionals in Educational Settings
